SPECIAL PRICES

For Fall 1907 and Spring 1908

In effect July 30, 1907; subject to change without notice

STARK BROS' NURSERIES & ORCHARDS CO

Capital Stock \$1,000,000.00—PAID UP

General Offices and Packing Houses
LOUISIANA, MO.

Branches: Starkdale, Mo., Fayetteville, Ark., Rockport, Ill.,
Perry, O., Portland, N. Y., Dansville, N. Y., Huntsville, Ala.

TERMS and CONDITIONS

We do NOT pay freight on orders at "Special Prices" quoted in this list. Freight rates are very low, Louisiana being on St. Louis basis.

For prices of stock **freight prepaid** see "Wholesale List"—free. Always refer to "Special List" when ordering at prices herein.

Prices in this list are **Strictly Net Cash** for first-class stock of the various sorts and grades specified, carefully packed and delivered free to freight or express office in Louisiana, Mo., with **no extra charge for boxes, bales or packing**. Packing will be done in the most thoro manner—all boxes paper lined at all seasons, a safeguard against both drying and freeing. We use ample moist packing material to keep stock in perfect condition for delivery by freight anywhere in the United States; express shipments are packed as lightly as is consistent with safe delivery.

TERMS—One-fourth cash with order, balance on arrival; **5 per cent off for cash in full** with order; no discount allowed unless **all cash** is received with the order.

Remittances should be made by draft on New York or St. Louis, or by express money order or postal money order. Personal checks should have exchange added. All remittances must be made payable to Stark Bro's Nurseries and Orchards Co., at Louisiana, Mo.

Please give explicit directions as to route and manner of shipment, as we expressly stipulate, and all orders are accepted with the understanding, that our responsibility shall end when stock is delivered to transportation company in good order. Claims for damage or delay in transit must be made direct to transportation Co.

We have never had any San Jose Scale in or near any of our nurseries; purchasers can rely upon receiving clean, healthy stock. Entomologist's Certificate of Inspection accompanies each shipment.

We Guarantee trees true to name, and use utmost care to avoid mistakes, but should any prove untrue to label, we will, upon proper proof, replace the trees free, or refund the price paid, **together with 6% interest**; but are **LIABLE** no further. Our just and liberal dealing during many years is our chief guaranty to our customers.

These Special Prices are based on a very small margin of profit, and should any trees or plants fail to grow, we cannot replace, either free or at a reduction. But **we guarantee** all stock to be in **perfect condition** and properly packed when leaving our hands.

10 Trees of one sort at 100 rate—as 10 Delicious, or 10 Gold, or 10 Alton, or 10 Kieffer, etc.; **300 of a KIND at 1000 rate**—as 300 Apple, or 300 Peach, or 300 Plum, etc.—no matter **how many** sorts or sizes, if **not less than 10** of any one sort and size.

Less than 10 Trees of a sort ALWAYS at Each rate.—

Example: In an order for 320 Apple—100 Black Ben XX, 2-yr., 85 Delicious 3 to 4 ft., 1-yr., 115 Jonathan XX, 2-yr., and 20 assorted (1, 2, 4, 7, etc., of a sort), latter 20 will go at Each rates, the **300 at 1000 rates**.

Different kinds, as 150 Apple and 150 Plum, cannot be taken together to make up 300 so as to obtain 1000 rate.

We uniformly tie TREES in **bundles of 10**, GRAPE VINES and SMALL FRUITS in **bundles of 25**; and as **unbroken** bundles are handled at less expense, we can thereby afford these UNUSUAL concessions.

Premium for ALL Cash With Order

To save bookkeeping and correspondence, customers who remit **ALL CASH WITH ORDER**, will receive **free** trees, vines, etc., **one-year** sizes, as below, **strictly our selection** of sorts where sorts are not named; we will always try to choose those best adapted to the locality in which they are to be planted.

PLEASE REMEMBER that if, by any mistake, **less** than the full amount of cash is remitted **with the order**, just as much bookkeeping and correspondence is required to collect the small balance, even tho only 25¢ or 50¢, as if 'twere \$25 or \$50. To secure Premium **be sure to send enough money** to pay **IN FULL** for all stock ordered. Any excess sent, by error or otherwise, will be returned.

WE CAN ALLOW NO CHANGES in make up of premiums.

PREMIUM NO. 1

Send an order amounting to **\$5 to \$20** full amount of cash with order, and add, free of charge, Premium No. 1:

2 CHOICE APPLE	2 CHOICE PEACH
1 " PEAR	1 GOLD DROP SDLG. PEACH
1 " CHERRY	1 ELBERTA " "
2 " PLUM	1 ROSE TREE OF CHINA
2 " GRAPE	1 WEIGELA ROSEA
25 EARLY HARVEST BLACKBERRY	1 BALTIMORE BELLE ROSE

PREMIUM NO. 2

Send an order amounting to **\$20 to \$40** all cash with order, and add, free of charge, Premium No. 2:

5 CHOICE ASSORTED APPLE	5 CHOICE ASSORTED PEACH
2 " PEAR	2 GOLD DROP SDLG. " "
2 " CHERRY	2 ELBERTA " "
5 CHOICE ASSORTED PLUM	1 ROSE TREE OF CHINA
5 " " GRAPE	1 WEIGELA ROSEA
25 EARLY HARVEST BLACKBERRY	1 BALTIMORE BELLE ROSE

PREMIUM NO. 3

Send an order amounting to **\$40 or Over** all cash with order, and add, free of charge, Premium No. 3:

10 CHOICE ASSORTED APPLE	5 CHOICE ASSORTED PEACH
3 " PEAR	3 GOLD DROP SDLG. " "
3 " CHERRY	3 ELBERTA " "
10 CHOICE ASSORTED PLUM	1 ROSE TREE OF CHINA
10 " " GRAPE	1 WEIGELA ROSEA
25 EARLY HARVEST BLACKBERRY	1 BALTIMORE BELLE ROSE

N. B. Positively, customers must mention the premiums on their orders themselves; we cannot look after it. If not specified, **premiums may not be sent** and we cannot be held responsible. **So please be SURE**, after order is made out and figured up and the amount known, to enter (preferably using blank on **Order Sheet**) the No. of your Premium—as "**Premium No. 2 for ALL cash**"—See **ORDER SHEET**.

Premium No. 3 is the largest, and **all**, we can give for any order no matter how large. Club orders are entitled to but one Premium.

GRADES

THREE Sizes of all Fruit trees are made in our Grading Houses:

XX Size is the size sure to please; **X Size** excels "1st class" of some; even 3d size are smooth, healthy, thrifty, and frequently give as good results as the larger sizes. Each size is 1st class of **that grade**; no second class, defective or cull trees go into any size, but to the brush pile. Larger sizes are graded by caliper (diameter) to similar **thickness** or **stockiness** of body—a true sign of quality. When graded by both caliper and height, the caliper **governs**, as height then named is approximated. Of course, dwarfish growing sorts are not so tall, nor are kinds of various habits of growth all alike.

One-Year Apple are also graded into three sizes—4 to 5 ft. and all up, 3 to 4 ft. and 2 to 3 ft. Our 2 to 3 ft. are superior to the largest 1-yr. of many nurseries.

Young, healthy, thrifty 1- or 2-yr. stock of X or even 3d size, is very **different** from small, old, rough, stunted trees, culled from 4- and 5-yr. blocks.

FIRST CHOICE LISTS carefully reduced; sorts of **GREATEST VALUE** for family use or profit are starred, thus: *Wealthy, *Gold, etc.

			3d, 3 ft.	13	.90	9.00

*DARTMOUTH	Finest Late Crab	2-Yr.	XX, 5 ft.	23¢	\$1.80	\$18.00
*FLORENCE	Worth ALL others put together		X, 4 ft.	18	1.40	14.00
			3d, 3 ft.	14	1.00	10.00

IN IOWA.—A Florence tree from Stark Bro's 3 years ago is **literally full of fruit**. I have, indeed, had the **best of success** with stock from that nursery. It is, in my opinion, all nonsense to say that northern grown trees are superior in hardiness to theirs. Northern stock must certainly have, to say the least, more liability of being damaged by the winter than trees grown further south.—E. B. Heaton, Ringgold Co., Iowa in Colman's Rural World.

STANDARD PEAR

			Each	10	100	1000
*Bartlett, 1-Year		4 to 5 ft.	27¢	\$2.20	\$22.00	\$180

SECOND CHOICE SORTS: Bradshaw (Niagara) Fellenburg (Italian Prune)
Grand Duke Pond Sdlg. (Hung'n) Prune d'Agen Satsuma Stoddard

Shiro bears just as full as it can stick **every season**, and many people think it the **best in quality** of all Jap. plums.—Luther Burbank, Santa Rosa, Calif.

GONZALES astonishes all.—F. I. Ramsey, Travis Co., Tex. Considering the fruit, healthfulness and bearing qualities, Gonzales is one of the best of all plums.—Jno. S. Kerr, Grayson Co., Tex.

NEW Sorts	{ XX, 5 to 7 ft....	33¢	\$2.70	\$27.00	\$220
	{ X, 4 to 5 ft.....	25	2.00	20.00	170

		20	1.60	16.00
		14	1.10	11.00
Early May	*Moorpark				
*Montgamet	*Royal				
*Superb	*Tilton				

INFRINGEMENTS WARNED: Gold, Black Ben, Delicious and others of our Trade-Mark Fruits have been re-registered in the U. S. Patent Office **under the new trade-mark law of Feb. 20, 1905**, fully covering trade-marks as applied to "Seeds, Plants and Trees." These names are the exclusive trade-marks of Stark Bro's N. & O. Co., and there is and can be, legally, no commercial use of same except by us.

DELICIOUS—The original Delicious tree, near Des Moines, Iowa, is 21 years old; 40 degrees below zero killed out most other sorts of same age, on the **flat black prairie soil** where it stands, yet the Delicious has given **15 successive crops without a failure**. Quality **absolutely the finest known**,—tender, delicate, **half sweet**, and altogether **different** from all other apples. Will please the most critical taste.

We do NOT pay freight on any orders at "Special Prices" as quoted in this list. Freight rates from Louisiana are very low, being on St. Louis basis.

We Make No Charge for boxes, bales or packing.

PEACH

LARGE PEACH TREES.—As a general proposition I want a large peach tree, and plant lots of them 6 and 8 ft. high. I used to try and make myself believe I wanted small trees, but experience has shown me that I do not. I want good big ones. I cut the top off at a height of 18 inches or 2 ft. and remove the side branches. If only one bud puts forth it is apt to discourage the planter, but it should be allowed to grow. The next season cut it back, leaving 3 or 4 buds, and it will put forth shoots which will make a fine top for the low-headed tree. Yes, I want big peach trees, and know they are best for the general planter.—J. H. Hale, the "Peach King," in Western Fruit Grower.

Usual Sorts, 1-Year

ALTON Peach maintains its good record; **proved more hardy** last winter than any other. Has **fruit on it now**, when **none on any other**. **Illinois** the best blackberry out.—E. A. Riehl, [Ex-Prest Ill. Hort. Soc.] Alton, Ill., July, 1905.

ILLINOIS Peach originated with Mr. E. H. Riehl, North Alton, Ill., Hort. Editor Colman's Rural World, than whom there is no better authority on peaches. Mr. Riehl says "the original tree came up within 2 ft. of an old White Heath, grew up thru the branches of the parent tree and was soon larger of the two. Bore abundantly when quite young, producing fruit of **largest size**, in quality **perfection itself**. Perfectly free. I regard it as a variety **far superior to anything else in its class**." A magnificent white flesh peach with beautiful red cheek, ripening soon after Champion, but **even hardier** and better quality.

CHERRY

		Each	10	100	1000

*Dyehouse	*Montmorency King	*Montreuil
E'y Richmond	* " Large	*Suda Hardy
Eng. Morello	* " Monarch	*Terry Early
*Ger. Ostheimer	* " Stark	*Wragg
	* " Sweet	

Montmorency is extraordinarily prolific, hardy, worth all other cherries yet known. We propagate from five different strains of fruiting trees, all of the best types—the Monarch from Iowa; the Large from Dansville, N. Y.; the King from N. Y., but grown here for 20 years; the Sweet from a tree yearly flocked to by the children because of its sweeter cherries; the Stark from a selected tree which uniformly bears very large and late fruit. Another "Large Mont." rec'd from N. Y. and Ill. in 1881, is valueless here; 20-year trees have never yielded even a quart per tree, while the King Montmorency trees of same age have never failed to bear good crops, some seasons over 40 gallons a tree.

*Bing	3 to 5 ft.....	30	\$2.50	\$25.00	\$210
*Lambert	2 to 3 ft.....	25	2.00	20.00	170
*Napoleon (Royal Ann)	1½ to 2 ft.....	20	1.60	16.00	125

We do not recommend the "Sweet" cherries such as Bl'k Tartarian, Gov. Wood, Bing, etc., for general planting east of the Rocky Mountains; they succeed only in certain favorable localities. The hardest, best sweet sorts are Bing, Lambert and Napoleon.

SECOND CHOICE SORTS

Baldwin	Gov. Wood	May Duke	Windsor
Black Tartarian	Late Richmond	Reine Hortense	Yel. Spanish, etc.

STARK GRAPE NURSERIES at Portland, N. Y., are in the heart of the famous Fredonia-Chautauqua Grape Belt, which ships more carloads of Grapes and produces finer vines than any other locality in the U. S.

GRAPE VINES and SMALL FRUITS are tied in bundles of 25; therefore we do not sell less than 25 of one sort at 100 rate nor less than 300 of one sort (as 300 Concord, 300 Cuthbert, Etc.) at 1000 rate.

We guarantee grades of our vines to equal those of any and all growers.

One-Yr. No. 2 grape vines furnished at 70% of prices of One-yr.

No. 1; Two-yr. No. 2 at 70% of prices quoted for Two-yr. No. 1.

ROOT GRAFTS

Root Grafts are scions and roots grafted ready for planting in nursery rows. Grafting season begins in Dec., closes in March. Grafts shipped in winter are packed in **paper lined** boxes to prevent freezing; they weigh about 25 lbs. per 1000, and expense of transportation is small. Keep in a cool, dark cellar. Prepare the ground well, and plant about 15,000 per acre, as soon as frost is out in spring; allow but one bud to project above the surface, and **firmlly press** the soil, particularly about the root and union, being **very careful** not to disturb the union.

Whole-Root Grafts are grafted at the **natural crown** and then roots **properly pruned back**, so that they will produce the best possible trees.

Stark Grafts are put up by experienced men who are paid by the day, and **not** by the 1000, and we have large orchards from which to cut scions. Nevertheless, we must advise orchard planters and those **inexperienced**, to buy trees, even if small size, instead; they will get orchards quicker and more certainly. For practical tree growers, Apple, Crab, and sometimes Pear grafts, are well enough. **Stone Fruits**, etc., we grow by budding.

Order Early to insure Graft orders being filled. To secure good stand early planting is necessary. Trees plant successfully after it is too late to plant grafts. Grafting season usually closes in March.

N. B. Grafts are supplied **without any guarantee** whatever other than that they will be true to label, and be delivered to transportation company in **good condition**. If not received in good condition claim must be made on Transportation Co., **not** on us; and we cannot replace, nor can we be held responsible in any way for grafts that fail to grow; quality and condition of soil, season, proper planting, care—all and each of these has **everything** to do with their success.

All Stark Grafts are made to **SPECIAL ORDER** and **as ordered**, then packed separately till time to ship. We do not make up Grafts ahead of orders, nor to carry in stock—except for our own planting.

Cheaper Grafts can be made if wanted—in lots of 5000 or over. But

neither the material nor workmanship will equal that we use in Grafts made for our own use—which is the **Best**. And Stark Grafts to fill your order will be **exactly the same**. Even if you order Piece-roots you will get the **best** Piece-root Grafts that can be made.

Grafts are Tied in bundles of 100 as made, with label on each bundle; if ordered in any quantity **less than 100 of a sort**, the **10 rate must apply** to cover the extra time and labor required in making, tying and labeling small quantities. Not less than **500 of one sort** will be supplied at 1000 rate.

Orders for root grafts received before March 1st, will be furnished at **\$1.00 per 1000 less than prices quoted**; **NO REDUCTION** from 10 and 1000 rate, nor on orders received **after March 1st**.
